

SALMAN JAHAN RAFI

AI/ML Engineer — Applied AI — AI Automation

sajidbin7777@gmail.com 01793443264

linkedin.com/in/salmanrafi002 github.com/Rafi7078

Dhaka, Bangladesh

PROFESSIONAL SUMMARY

Information and Communication Engineering graduate with hands-on experience across artificial intelligence, machine learning, data annotation, software quality assurance, and applied AI development. Proficient in Python, Scikit-learn, Pandas, NumPy, RAG, LLM integration, FastAPI, SQL, and Power BI, with experience building AI-powered applications, predictive models, data-analysis workflows, and intelligent systems. Interested in developing practical, data-driven solutions as an AI/ML, Applied AI, or Data professional.

TECHNICAL SKILLS

Programming: Python, R, C, Java, TypeScript, SQL

Machine Learning & AI: Scikit-learn, SVM, K-Means, Logistic Regression, Linear Regression, XGBoost, CNN, NLP, RAG, LLM Integration

Generative AI & Vector Search: Gemini API, Ollama, ChromaDB, pgvector, Prompt Engineering

Data Analysis & Visualization: Pandas, NumPy, Power BI, Matplotlib, Seaborn, Exploratory Data Analysis (EDA)

Backend & APIs: FastAPI, REST APIs, SQLAlchemy

Web & Database: HTML, CSS, JavaScript, PHP, MySQL, WordPress

Testing & Tools: Selenium, Cypress, Jira, Trello, Git, Google Colab, Jupyter Notebook, MS Excel, Word, PowerPoint

PROFESSIONAL EXPERIENCE

Data Analyst – Data Engineer Team **July 2026 – Present**
Rooya Bangladesh

- Used Python (Pandas, NumPy) and Excel for data cleaning, analysis, automation, and preparing analytical reports.
- Used SQL to extract, filter, join, and analyze data from databases for reporting and decision-making.
- Built interactive Power BI dashboards and reports to visualize KPIs, trends, and business performance.
- Collaborated with technical and business teams to understand reporting requirements, investigate data issues, and deliver analytical support.
- Annotate and label image and text datasets according to project-specific guidelines to support AI and machine-learning model development.

QA Engineer – Quality Assurance Team **May 2026 – July 2026**
Dream71 Bangladesh Limited

- Performed manual and automated testing for web-based applications, including functional, regression, smoke, and usability testing to ensure product quality.
- Developed and maintained automated test scripts using Playwright with TypeScript, covering critical user flows and reducing repetitive manual testing efforts.
- Conducted API testing using Postman and participated in requirement analysis, test case preparation, execution, and regression testing before production releases.

Intern – In-House Software Development Team **December 2024 – February 2025**
IT Division, Trust Bank PLC

- Worked with WordPress to develop and customize website functionality, including banking-service and customer-support features.
- Gained hands-on experience in front-end development using WordPress and backend development using PHP.

EDUCATION

B.Sc. in Information and Communication Engineering **2025**
Bangladesh University of Professionals, Dhaka
CGPA: 3.59 / 4.00

Higher Secondary Certificate (HSC) **2020**
BAF Shaheen College, Paharkanchanpur
Science — GPA: 5.00 / 5.00

Secondary School Certificate (SSC) **2018**
BAF Shaheen School, Paharkanchanpur
Science — GPA: 5.00 / 5.00

PROJECTS

PeopleMind AI – AI-Powered HR Intelligence Assistant

- Developed a full-stack HR Intelligence Assistant using FastAPI, React, TypeScript, SQLite, ChromaDB, Ollama, and Gemini Embeddings, supporting document-based HR Q&A with citations, CV screening/ranking, attendance management, and HR analytics.
- Implemented a RAG-based document intelligence pipeline with PDF processing, text chunking, semantic search, embedding providers, vector storage, evidence-grounded responses, and automated backend testing.
- github.com/Rafi7078/peoplemind-ai

Brain Tumor Detection using AI

- Developed an AI-driven medical imaging system for automated brain tumor detection and localization using deep-learning models and image preprocessing techniques.
- github.com/Rafi7078/Human_Brain_Tumor_Detect

Telecom Customer Churn Analysis — Python EDA

- Performed exploratory data analysis on customer churn data using Python, Pandas, Matplotlib, and Seaborn to identify retention patterns, churn behavior, and business risk factors.
- Generated actionable insights and strategic recommendations aimed at improving customer retention.
- github.com/Rafi7078/telecom-customer-churn-analysis

Online Course Engagement Analysis — Python EDA

- Designed a data-driven analytics system to evaluate learner engagement, participation duration, and course completion rates using Python, Pandas, NumPy, Matplotlib, Seaborn, and Scikit-learn.
- github.com/Rafi7078/Online-Course-Engagement-Analysis

Amazon Sales Analysis Dashboard — Power BI

- Built an interactive Power BI sales analytics dashboard to monitor YTD sales, product performance, customer reviews, and monthly sales trends.
- Performed business-intelligence analysis using data visualization techniques and KPI metrics.
- github.com/Rafi7078/amazon-sales-analysis-powerbi-dashboard

HR Analytics Dashboard — Power BI

- Developed an interactive HR Analytics Dashboard using Power BI to analyze employee attrition, workforce demographics, salary distribution, and job role trends.
- Generated business insights to support HR decision-making and employee retention strategies.
- github.com/Rafi7078/powerbi-hr-analytics-dashboard

CERTIFICATIONS & PROFESSIONAL TRAINING

Deloitte Data Analytics Simulation Program – Deloitte

- Completed practical tasks in data analysis and forensic technology, including data cleaning, reporting, and analytics workflows.
- Certificate

Excel Essentials for Workplace Productivity – Passport to Earning Bangladesh (UNICEF)

- Developed practical Excel skills involving formulas, PivotTables, charts, dashboards, data analysis, visualization, and workplace reporting.
- Certificate

ADDITIONAL INFORMATION

Languages: English, Bengali
