

SALMAN JAHAN RAFI

Motivated and analytical Computer Science and Engineering graduate with hands-on experience in data analysis, business intelligence, and data visualization. Skilled in Python, Pandas, NumPy, Power BI, and SQL with a strong foundation in exploratory data analysis (EDA), dashboard development, and business insight generation. Passionate about transforming complex data into actionable insights to support data-driven decision-making and solve real-world business problems.

 72/11, ECB, Dhaka Cantonment

WORK EXPERIENCES

IT Division, Trust Bank PLC

Intern – In-House Software Development Team

Tenure: December 2024 – February 2025

- Worked with WordPress to develop and customize the website, integrating features like banking services and customer support tools.
- Gained hands-on experience in front-end development using WordPress and PHP for backend development.

Dream71 Bangladesh Limited

QA Engineer Intern – Software Quality Assurance Team

Tenure: June 2026 – July 2026

- Contributing to the BTRC LIMS 2.0 (License Issuance and Management System) project by preparing requirement-based test cases from SRS/TOR documents.
- Performing manual testing, UI testing, functional testing, validation testing, negative testing, and regression testing to ensure system quality.
- Documenting actual results, updating QA status, reporting issues, and verifying developer fixes using the company’s test case tracking format. banking services.

Rooya Bangladesh

Data Annotation Analyst – Level Master(LM) Team

Tenure: July 2026 – Present

- Annotating and labeling image and text datasets according to project-specific guidelines to support AI and machine learning model development.
- Reviewing, validating, and correcting annotations to ensure accuracy, consistency, and overall dataset quality.
- Identifying missing, incorrect, duplicate, or ambiguous labels and reporting complex cases to the team lead for clarification.

EDUCATION

B.S.C in Information and Communication Engineering

2025

- Bangladesh University of Professionals, Dhaka
- CGPA: 3.59 out of 4.00

Higher Secondary Certificate (HSC)

2020

- BAF Shaheen College, Paharkanchanpur
- Group: Science
- GPA: 5.00 out of 5.00

Secondary School Certificate (SSC)

2018

- BAF Shaheen School, Paharkanchanpur
- Group: Science
- GPA: 4.89 out of 5.00

TECHNICAL SKILLS

- **Programming Languages:** R, C, Java, Python
- **Machine Learning:** SVM, K-Means, Logistic & Linear Regression, XGBoost, CNN, NLP, Scikit-learn
- **Data Analysis & Visualization:** Power BI, SQL, Matplotlib, Seaborn, Exploratory Data Analysis (EDA), Pandas, NumPy
- **Web Development:** HTML, CSS, PHP, JavaScript, MySQL
- **Content Management System (CMS):** WordPress
- **Automation Testing & Bug Tracking:** Selenium, Cypress, Trello, Jira
- **Tools & Platforms:** Git, Google Collab, Jupyter Notebook, MS Excel, Word, PowerPoint

PROJECTS

Amazon Sales Analysis Dashboard | Power BI

- Built an interactive sales analytics dashboard using Power BI to monitor YTD sales, product performance, customer reviews, and monthly sales trends. Performed business intelligence analysis using data visualization techniques and KPI metrics.
- **GitHub:** <https://github.com/Rafi7078/amazon-sales-analysis-powerbi-dashboard>

HR Analytics Dashboard | Power BI

- Developed an interactive HR Analytics Dashboard using Power BI to analyze employee attrition, workforce demographics, salary distribution, and job role trends. Generated business insights to support HR decision-making and employee retention strategies.
- **GitHub:** <https://github.com/Rafi7078/powerbi-hr-analytics-dashboard>

E-Commerce Sales Analysis Dashboard | Power BI

- Designed a dynamic Power BI dashboard to analyze sales performance, profit trends, customer behavior, and category-wise business insights. Implemented KPI tracking and interactive visualizations to support data-driven business decisions.
- **GitHub:** <https://github.com/Rafi7078/powerbi-ecommerce-sales-dashboard>

Telecom Customer Churn Analysis | Python EDA

- Performed Exploratory Data Analysis (EDA) on customer churn data using Python, Pandas, Matplotlib, and Seaborn to identify retention patterns, churn behavior, and business risk factors. Generated actionable insights and strategic recommendations to improve customer retention.
- **GitHub:** <https://github.com/Rafi7078/telecom-customer-churn-analysis>

Brain Tumor Detection using AI

- Developed an AI-driven medical imaging system for automated brain tumor detection and localization, improving diagnostic accuracy through deep learning models and image preprocessing techniques.
- **GitHub:** https://github.com/Rafi7078/Human_Brain_Tumor_Detect

Online Course Engagement Analysis

- Designed a data-driven analytics system to evaluate learner engagement, participation duration, and course completion rates using Python, Pandas, NumPy, Matplotlib, Seaborn, and Scikit-learn.
- **GitHub:** <https://github.com/Rafi7078/Online-Course-Engagement-Analysis>

Pokémon Stats Prediction

- Built data analytics and prediction model to analyze Pokémon datasets, identifying correlations between attributes, generations, and battle statistics using advanced data preprocessing and exploration data analysis.
- **GitHub:** <https://github.com/Rafi7078/Pokemon-stats-prediction>

NON-TECHNICAL SKILLS

- Software Development Lifecycle (SDLC)
- Project Management (Agile, Scrum)
- Integrity & Professional Ethics
- Analytical & Problem-Solving Skills
- Teamwork & Collaboration

LANGUAGE SKILLS

- Fluent in English & Bengali
