

SALMAN JAHAN RAFI

Motivated and detail-oriented Information and Communication Engineering graduate with strong foundations in data analysis, machine learning, software testing, and web development. Passionate about applying analytical and technical expertise to solve real-world problems through innovative digital solutions. Seeking a challenging opportunity in AI, data-driven systems, software engineering, or SQA where continuous learning, innovation, and professional growth are encouraged.

WORK EXPERIENCES

IT Division, Trust Bank PLC
Intern – In-House Software Development Team
Tenure: December 2024 – February 2025

- Worked with WordPress to develop and customize the website, integrating features like banking services and customer support tools.
- Gained hands-on experience in front-end development using WordPress and PHP for backend development.
- Worked on website performance optimization, reducing page load times and ensuring seamless access to banking services.

Dream71 Bangladesh Limited
QA Engineer – Software Development Team
Tenure: March 2026 – July 2026

- Contributing to the BTRC LIMS 2.0 (License Issuance and Management System) project by preparing requirement-based test cases from SRS/TOR documents.
- Performing manual testing, UI testing, functional testing, validation testing, negative testing, and regression testing to ensure system quality.
- Documenting actual results, updating QA status, reporting issues, and verifying developer fixes using the company's test case tracking format.
- Gaining hands-on experience in government software QA, requirement analysis, bug reporting, and end-to-end testing workflow.

Rooya Bangladesh
Data Annotation Analyst – Level Master (LM) Team
Tenure: July 2026 – Present

- Annotating and labeling image and text datasets according to project-specific guidelines to support AI and machine learning model development.
- Reviewing, validating, and correcting annotations to ensure accuracy, consistency, and overall dataset quality.
- Identifying missing, incorrect, duplicate, or ambiguous labels and reporting complex cases to the team lead for clarification.

EDUCATION

B.S.C Information and Communication Engineering (BICE)	2025
• Bangladesh University of Professionals (BUP) • CGPA: 3.59 out of 4.00	
Higher Secondary Certificate (HSC)	2020
• BAF Shaheen College, Paharkanchanpur • Group: Science • GPA: 5.00 out of 5.00	
Secondary School Certificate (SSC)	2018
• BAF Shaheen School, Paharkanchanpur • Group: Science • GPA: 5.00 out of 5.00	

CORE COMPETENCIES

- Software Development Lifecycle (SDLC)
- Manual & Functional Testing
- Automation Testing (Playwright, Cypress)
- Programming (JavaScript, TypeScript)
- Database Management (MySQL, PostgreSQL)
- Bug Tracking & Issue Management (Trello, Jira)
- Project Management (Agile, Scrum)
- CMS Management (WordPress)
- Teamwork & Collaboration
- Integrity & Professional Ethics

LANGUAGE SKILLS

- Fluent in English & Bengali

PROJECTS

End-to-End Testing with Cypress

- Implemented end-to-end (E2E) tests for a web application using Cypress to validate multiple login scenarios. The tests included cases such as valid password with invalid username, invalid password with invalid username, and other edge cases to ensure robust application functionality.
- GitHub: <https://github.com/Rafi7078/End-to-End-Testing-with-Cypress>

Brain Tumor Detection using AI

- Developed an AI-driven medical imaging system for automated brain tumor detection and localization, improving diagnostic accuracy through deep learning models and image preprocessing techniques.
- GitHub: https://github.com/Rafi7078/Human_Brain_Tumor_Detect

Online Course Engagement Analysis

- Designed a data-driven analytics system to evaluate learner engagement, participation duration, and course completion rates using Python, Pandas, NumPy, Matplotlib, Seaborn, and Scikit-learn.
- GitHub: <https://github.com/Rafi7078/Online-Course-Engagement-Analysis>

E-Commerce Website

- Engineered a fully functional and responsive e-commerce platform featuring secure user authentication, product management, shopping cart, and order processing systems using HTML, CSS, JavaScript, and PHP.
- GitHub: <https://github.com/Rafi7078/E-Commerce>

Travel Agency Website

- Developed a dynamic booking and management platform to handle tour packages, reservations, and customer inquiries using HTML, CSS, JavaScript, PHP, and MySQL with an intuitive user experience design.
- GitHub: https://github.com/Rafi7078/Travel_Agency

Certifications & Professional Training

Excel Essentials for Workplace Productivity – Passport to Earning Bangladesh (UNICEF)

- Developed advanced Excel skills: formulas, PivotTables, charts, and dashboards. Learned data analysis, visualization, and reporting techniques for workplace productivity.
- GitHub: <https://github.com/Rafi7078/Excel-Productivity-Certificates>

Deloitte Data Analytics Simulation Program – Deloitte

- Completed practical tasks in data analysis and forensic technology. Gained hands-on experience with data cleaning, reporting, and analytics workflows.
- GitHub: <https://github.com/Rafi7078/Deloitte-Data-Analytics-Simulation-Program>

TECHNICAL SKILLS

- Programming Languages: R, Python, C, Java
- Machine Learning: SVM, K-Means, XGBoost, CNN, NLP, Scikit-learn
- Data Analysis & Visualization: Power BI, SQL, Matplotlib, Seaborn, Pandas, NumPy
- Web Development: HTML, CSS, JavaScript, PHP, MySQL
- Tools & Platforms: Git, Google Colab, Jupyter Notebook, MS Excel, Word, PowerPoint
